This week at the nation's capital there will be held the annual encamptember. She was an earnest Christment of the Grand Army of the Republic. With depleted ranks and enfee men's souls and recount the deeds of J. W. Gorrell, pastor of the Christian final roll call. Years have but strength vate. ened their love of country, and not a soldier who rallied to his country's defense but is glad of the part he had in the struggle, even though he has suffered ever since the dark days of the sixties from the wounds or the hardships then incurred. There has been a good deal said, first and last, against the keeping alive of war memories; but the memories which the soldiers of the civil war cherish are of the sort that make men wiser, braver and better. The soothing influence of time has long since eliminated all bitterness from the hearts of those who tought, both for the north and the south, and ex-soldiers from box

There is good and not evil from February 17, 1899. in the war memories that are recalled at these annual gatherings; they are a part of our country's most glorious history, and long may the veteran. ngainst Samuel Small, now deceased. now assembling at Washington live to enjoy them. No country on the face of the earth honors its old soldiers more than the United States, and none has better reason for doing so.

Out at Colorado Springs today a meeting, important to the whole country and particularly to the west, is opening. It is the national irrigation congress, which will urge upon the government the necessity of taking up the improvement of arid lands, hitherto conducted principally by private effort. The work proposed is almost as important to the distant west as is the improvement of the Ohio river to the central states. #### MANADAMBA ANDAMBI WE LIKE TO WAIT ON CHILDREN

There's a great difference in people - especially men. Some like children, seem lost without them; others don't like to wait on them, consider them a nuisance. We wouldn't know what to do without children. We like to see them come in, and we'd rather wait on them than anybody; they are such patient, satisfying, trusting little customers. Send the little folks here on errands and they will be treated in a way that will make them and their parents happy.

Business Men Think Miners Should Hold a Convention.

Scranton, Pa., Oct. 6 .- Just before daybreak yesterday morning a squad of Thirteenth regiment men, stationed near the Grassy Island colliery, came across an Italian striker named Guiseppe Papriello prowling about the outpost with a shotgun. He fired in the direction in which the soldiers were approaching, afterwards alleging he was shooting at a bird. Colonel Watres had received information that Papriello was receiving arms and ammunition, and last evening a detachment of two companies was sent to his house. The soldiers found there 1,2000 rounds of cartridges for shotguns. No arms, however, were found. Papriello was turned over to Sheriff Schadt.

sixth annual encampment of the medicine. Grand Army of the Republic began here today, and with the meeting of affiliated with the main body will continue until next Saturday.

#### Washington Is Ready.

Preparations for the gathering are complete and Washington is ready to entertain the almost countless throng which will make the city their headquarters during the week. The local committees have taken every precaution for the protection of life and limb and the housing of those who will be unable to find hotel accommodations. For indigent veterans large tents have been erected on the White House lot and several floors of the new government printing office have been utilized. residences along rennsylvania avenue street M. E. church at Lynn., Mass., and the other main thoroughfares of the city have been appropriately decorated for the encampment season. The display of flags and bunting is very generous.

#### Program For Today.

Today there will be an automobile parade, a regatta on the Potomac river, the dedication of Camp Roosevelt on the White House lot, at which Secretary of State John Hay will camp fire at convention hall.

Tomorrow the naval parade will take up the morning, while the afternoon and evening will be devoted to receptions and reunions.

Wednesday will occur the big parade of the Grand Army of the Republic, while in the evening a number of receptions will be held.

Thursday, Friday and Saturday will occur the meetings of the national encampment and the various auxiliary bodies and also reunions and recep-

tions. A fitting preliminary to the gathering of the veterans at Camp Roosevelt during encampment week was the holding of religious services there Sunday afternoon and last night in Grant tent. The rain interfered with the attendance, still there were many veterans present. At the afternoon services the Rev. W. C. Alexander, the chairman of the committee on religious exercises, presided and addresses were made by the Rev. D. B. Shuey, of Emporia, Kan., and J. C. Butler and H. M. Shick, of this city.

Ex-Prosecuting Attorney James Gordon Marshall died very suddely at his home on Ridge avenue, New Cumberland, this morning of heart failure, aged 76 years. As late as last Tuesday he visited the home of his son, Erastus D. Marshall, at Chester, looking after some legal business, and was apparently in the best of health. He will be buried at the Flats cemetery, at Fairview, probably Wednesday. Heart failure was the cause of death, he having died at 6:36 o'clock while sitting in his chair in his bed room.

There's a great difference in people - especially men. Some like children, seem lost without them; others don't like to wait on them, consider them a nuisance. We wouldn't know what to do without children. We like to see them come in, and we'd rather wait on them than anybody; they are such patient, satisfying, trusting little customers. TO CONSIDER BAER'S OFFER.

Business Men Think Miners Should Hold a Convention.

Scranton, Pa., Oct. 6 .- Just before daybreak yesterday morning a squad of Thirteenth regiment men, stationed near the Grassy Island colliery, came across an Italian striker named Guiseppe Papriello prowling about the outpost with a shotgun. He fired in the direction in which the soldiers were approaching, afterwards alleging he was shooting at a bird. Colonel Watres had received information that Papriello was receiving arms and ammunition, and last evening a detachment of two companies was sent to his house. The soldiers found there 1,2000 rounds of cartridges for shotguns. No arms, however, were found. Papriello was turned over to Sheriff Schadt.

Twice during Saturday night sentries about the Thirteenth camp were stoned and early in the evening a train bearing troops from Olyphant to Birdseye encountered a pile of rocks and a felled tree across the

The soldiers are also anticipating this and some serious clashes are not unlikely.

There is a strong feeling prevalent, especially among the business men. that there should be a convention of the strikers called to pass upon the Baer proposition to refer to the district courts any dispute that cannot be satisfactorily adjusted between the miner and his employer. The operators declare that if such a convention was held and a secret ballot taken the vote in favor of going back to work on these terms would be almost unanimous.

Mine workers' leaders say the proposition is a sham intended to deceive the public.

It is wholly impracticable, they say, and before the week is over locals throughout the whole region will pass resolutions commending President Mitchell for taking it upon himself to ignore the proposal.

#### A NEEDID IMPROVEMENT

For Which East Enders Have Waited Long Is the Boyce Street Bridge.

Another needed improvement is being made on Virginia avenue. The fact that it has been delayed for so many years is more than many taxpayers of the East End can understand. A few months ago Street Commissioner Frank Dickey constructed a bridge across one of the runs on Virginia avenue, and now work has commenced upon another, just above the East End fire station. This latter improvement has long been needed, and it is expected that it will be completed about the last of the week. The first bridge built, which was near the Second Presbyterian church, is being widened, and it will require about three days to finish this work. There's a great difference in people-especially men. Some like children, seem lost without them; others don't like to wait on them, consider them a nuisance. We wouldn't know what to do without children. We like to see them come in, and we'd rather wait on them than anybody; they are such patient, satisfying, trusting little customers. #### President Under Much Excitement.

The president, in expressing his views at the outset of the conference, talked earnestly and showed a deep feeling. His voice at times became heard downstairs. Several times during the conference Secretary Cortelyou was summoned into the room and directed to prepare certain matters for the consideration of the president and his advisers. #### TO CONSIDER BAER'S OFFER. Business Men Think Miners Should Hold a Convention.

Scranton, Pa., Oct. 6 .- Just before daybreak yesterday morning a squad of Thirteenth regiment men, stationed near the Grassy Island colliery, came across an Italian striker named Guiseppe Papriello prowling about the outpost with a shotgun. He fired in the direction in which the soldiers were approaching, afterwards alleging he was shooting at a bird. Colonel Watres had received information that Papriello was receiving arms and ammunition, and last evening a detachment of two companies was sent to his house. The soldiers found there 1,2000 rounds of cartridges for shotguns. No arms, however, were found. Papriello was turned over to Sheriff Schadt.

Twice during Saturday night sentries about the Thirteenth camp were stoned and early in the evening a train bearing troops from Olyphant to Birdseye encountered a pile of rocks and a felled tree across the

It was expected that this morning would witness no end of disturbances. The strikers feel that Friday's conference at the White House will dishearten many of their members and prevent additions to the working forces at the collieries. The soldiers are also anticipating this and some serious clashes are not unlikely.

There is a strong feeling prevalent, especially among the business men, that there should be a convention of the strikers called to pass upon the Baer proposition to refer to the district courts any dispute that cannot be satisfactorily adjusted between the miner and his employer. The operators declare that if such a convention was held and a secret ballot taken the vote in favor of going back to work on these terms would be almost unanimous.

Mine workers' leaders say the proposition is a sham intended to deceive the public.

It is wholly impracticable, they say and before the week is over locals throughout the whole region will pass resolutions commending President Mitchell for taking it upon himself to ignore the proposal.

# G.A. R. ENCAMPMENT.

Opening Exercises of Old Soldiers' Gathering at Washington Today.

#### SECRETARY HAY IS TO SPEAK.

Will Make Chief Address at Dedication of Camp Roosevelt, on White Camp and Grant Tent, Sunday.

Washington, Oct. 6.-The thirtysixth annual encampment of the Grand Army of the Republic began here today, and with the meeting of the various auxiliary organizations affiliated with the main body will continue until next Saturday.

#### Washington Is Ready.

Preparations for the gathering are complete and Washington is ready to entertain the almost countless throng which will make the city their headquarters during the week. The local committees have taken every precaution for the protection of life and limb and the housing of those who will be unable to find hotel accommodations. For indigent veterans large tents have been erected on the White House lot and several floors of the new government printing office have been utilized. Great crowds of visitors had poured into the city through-

The business houses and private residences along rennsylvania avenue street M. E. church at Lynn., Mass., and the other main thoroughfares of the city have been appropriately decorated for the encampment season. The display of flags and bunting is very generous.

#### Program For Today.

Today there will be an automobile parade, a regatta on the Potomac river, the dedication of Camp Roosevelt on the White House lot, at which Secretary of State John Hay will camp fire at convention hall.

Tomorrow the naval parade will take up the morning, while the afternoon and evening will be devoted to receptions and reunions.

Wednesday will occur the big parade of the Grand Army of the Republic, while in the evening a number of receptions will be held.

Thursday, Friday and Saturday will occur the meetings of the national encampment and the various auxiliary bodies and also reunions and recep-

tions. A fitting preliminary to the gathering of the veterans at Camp Roosevelt during encampment week was the holding of religious services there Sunday afternoon and last night in Grant tent. The rain interfered with the attendance, still there were many veterans present. At the afternoon services the Rev. W. C. Alexander, the chairman of the committee on religious exercises, presided and addresses were made by the Rev. D. B. Shuey, of Emporia, Kan., and J. C. Butler and H. M. Shick, of this city.
